Teams

◆ Task: answer questions to get team points
  ■ Score kept during semester
  ■ Periodic immediate rewards

◆ Divide room into 4 teams
  ■ rearrange now if you like,
  ■ sit same place in later classes, if you like

Teams

- ◈ Rules:
  - I, instructor, keep track of actual points
  - Questions for sudden death (i.e., lose all points) may occur at instructors discretion
  - Double agents allowed from my point of view
  - Citizen-exchange allowed from my point of view
  - Team scoring plots are allowed from my point of view

- ◈ Prize:
  - Team can declare themselves World-Champion of CS251 Spring 2019 Intellectual Decathlon (WCCSID)
  - Winning team can rename their title if desired
  - Winning team will also feel united with prior winning team members still lurking in the department as successful CS students

Teams

- ◆ Choose Team Captain
  - Captain will periodically coordinate things
- ◆ Choose Team Names
  - (stage left) Blue-Guy, Vitamin C++
  - (stage right) Shree, WCCSID
  - (stage far) Mr. Purdue, Vitamin A+
  - (stage near) Kushal, Downstage

First Possible Team Point

◆ You have 43 fish in a pond.

◆ 17 fish drown.

◆ [TEAMS] How many fish are still alive?
   43

(was told to me by then 7-year old son)
